Rockville, MD 20855

Dear Dr. Sundlof,

I am writing to you to express my concern over the use of antibiotics and hormones in farm animals. Besides being concerned about the inhumane way the animals are treated, I am very concerned about how unhealthy the meat and dairy products are that we are feeding to our children. We are literally putting our lives in danger to ingest these foods. My husband and I have become vegans because of this concern. We loved meat and dairy but felt so threaten by the contamination of the products with hormones and antibiotics that we have stopped eating all animal products. I would like to see the animals back out in the fields, treated humanly and have our foods safe to eat again.

Sincerely,

Lois Gowen
